THE ROGERS NURSERY OREGON ADVANTAGE

#1. THE RIGHT MIX.

GET JUST THE PLANT MATERIAL YOU WANT! WHY ORDER ITEMS YOU DO NOT NEED JUST TO MEET MINIMUM ORDER REQUIREMENTS?

Rogers Nursery grows beautiful specialty items. Pom Poms, Spirals, Poodles, large specimen material etc. Independent garden centers, re-wholesalers, and landscapers; love our elegant, beautiful specialty plants. Yet all of our customers can only use, *so much*, elegant specialty material. In order to assist our customers, we are distributors for dozens of local Oregon Wholesale Nurseries. We combine our availability and our neighbors' availabilities to create the largest single industry availability. It is over 7000 plant offerings representing over 2000 varieties. After you place your order, we harvest what we grow using our tractors & carts, and we collect your order balance from neighboring wholesale nurseries using our fleet of 24' trucks. Our neighbors' give us a reduction for moving their plant material, so we can offer it at the same price as they do. **This gives you the One Stop Oregon Shop.**

Look at our 2008 Trade Show Booth as an example. It is just 42 items at a wholesale cost of \$2400. To get this identical mix, you *could* place 8 different orders; with 8 different Oregon Nurseries; meet 8 order minimums and pay 8 freight bills. Your landed cost would be between **\$25,000 and \$50,000** leaving you with a whole lot of plants you may not want or need! At Rogers, you would get the same mix landed for **\$3,000**. (See table at right) Why buy plants you do not want or need to get the mix you want. **With us, you only have to meet one low \$2500 minimum.**

#2. THE RIGHT QUALITY

SUPERIOR QUALITY FOR YOUR CUSTOMERS! AND WHETHER GROWN ON OUR SOIL OR OUR NEIGHBORS SOIL; EVERYTHING SHIPS FROM OUR NURSERY! WE ARE YOUR EYES.

Why order poor quality? We are known for the high quality standards we demand of the product we grow on our farm & Oregon nurseries grow the finest quality nursery stock in the world. Your plant selection is inspected prior to shipment to ensure it meets our high quality standards. If a plant fails inspection, we select another from another farm with better quality! When you use just a broker, your plants are loaded at each nursery the broker represents and most brokers are not present at loading to ensure quality. And each individual farm loads semi trailers differently, so your mixed orders have more breakage. We load your entire order at our nursery! Optimal packing prevents breakage and minimizes the trailer footage reducing your freight cost!

#3. THE RIGHT "LANDED" COST!

Qty. Purchased	Approximate Discount Earned
1-9	List Price
10+	2.5%
25+	5.0%
50+	10%
100+	15%

WE OFFER QUANTITY DISCOUNTS & AFFORDABLE FREIGHT!

Most items we sell have quantity break discounts, and they are listed on our availability. The more you order, the more you save. Plus, when it comes time to ship your order we strive to minimize your freight bill. We have a theory. **If you are spending more on freight, you are spending less on plants.** This does not help either of us. We put the loads together; route the truck & drops; and then fax the load details to over 140 trucking companies of various sizes and let them Bid on the Load.

GUARANTEE: All nursery stock purchased will be true to name and in good, healthy condition when they leave our nursery. Thus, Nursery Stock can not be guaranteed to live after being accepted in good condition. Therefore, we give no warranty expressed or implied on any product that we sell. Should any product prove untrue to name as described on label, within recognized tolerances of the industry, it is mutually agreed that sellers total liability shall be limited to the original purchase price of the product. We expressly disclaim any warranty, written or oral, expressed or implied, as to the productiveness or growth, as to results, secured in transplanting or any other consequential damages. We also expressly disclaim any such warranty, written or oral, expressed or implied, of merchantability of fitness for a particular purpose, intended use or plant viability under purchaser's growing conditions and environment.
